# PANTHERAMA 1975

you are about to enter the panthers' world SOUTHSIDE SCHOOL SELMA, ALA.

#### DEDICATIN. . .

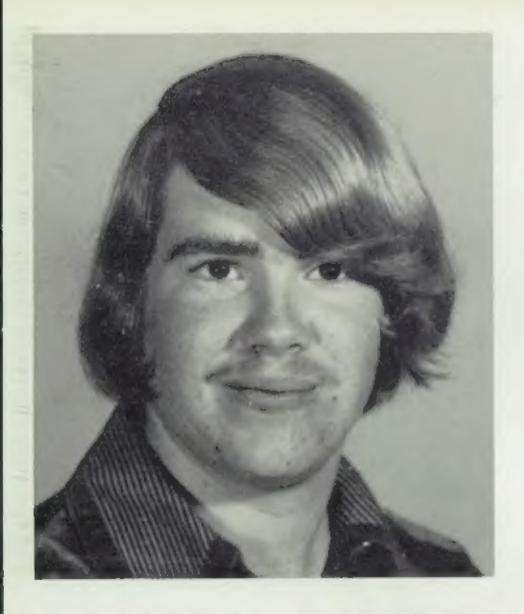

this year's annual to a man who works hard and long to see Southside grow and develope into a school to be proud of — our hat is off to you,

MR. BEN TROLINGER

CAROL CZERW Sponsor

#### INTRODUCIN. . .

the 1974-75 Pantherama. This year we attempted to achieve an excellence never before seen in a Southside annual. I have enjoyed working with a great group of students and a terrific sponsor in putting this edition together. This year we are using a little dog to illustrate our book and give you a tour of what happened at Southside this year.

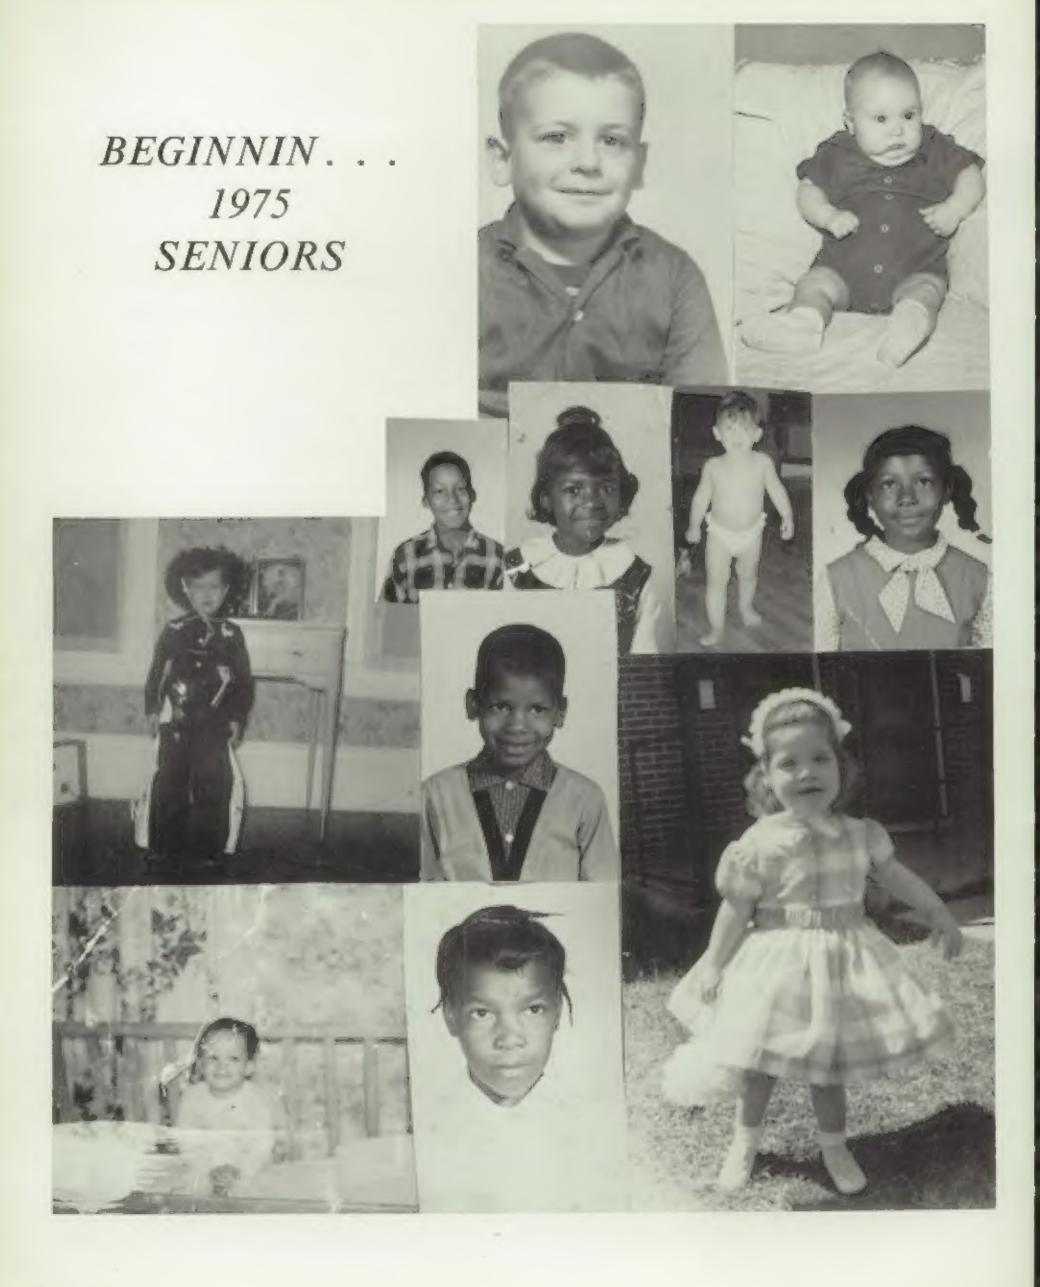

The annual staff sponsored a "Name That Dog" contest to come up with a name for our little friend. Dawn Mason contributed the winning name, Winky Lee. I hope you enjoy this copy of the Pantherama as much as our staff enjoyed putting it together.

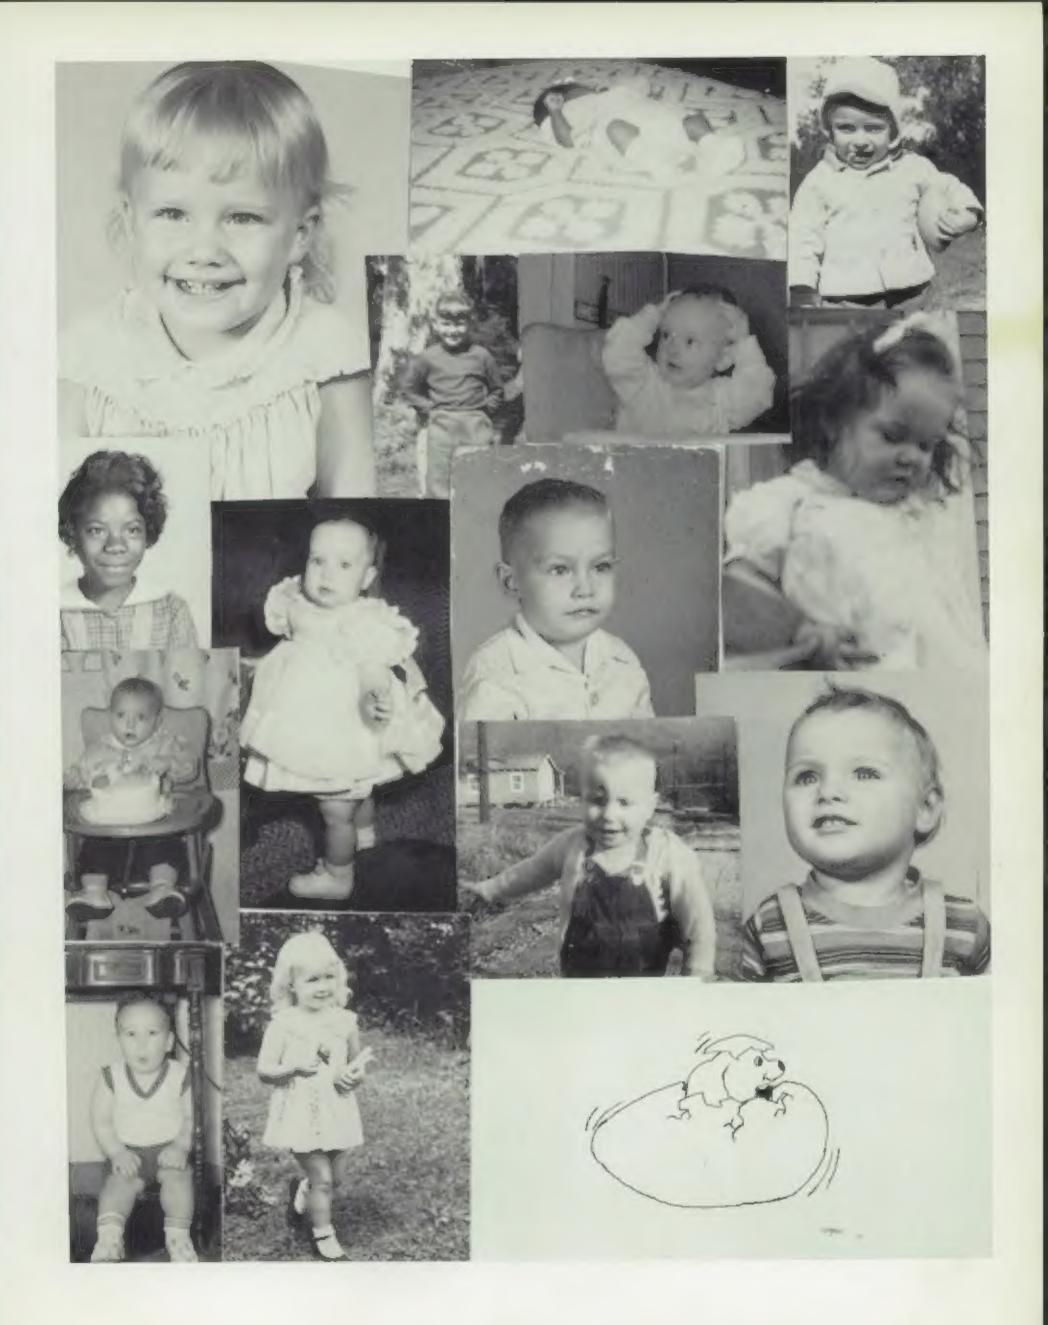

Thomas Osburn,

Editor

So take it away, WINKY LEE . . .

#### PRINCIPALS. . .

The office of the Principal is established in the Dallas County Schools so that educational leadership will be available in each school to faculty, students and the community. The Principal is a direct representative of the Superintendent and his duties are directive in nature. He is responsible for supervision of instruction, quality and improvement of instruction, inservice training, morale of faculty and students, personnel administration, and other duties that are necessary for a well organized and functioning school program.

Of our own Principal, the Southern Association had this to say, "The Principal is to be commended for his role in developing the good spirit of cooperation among the faculty. He has made tremendous progress under very trying circumstances." We want to whole-heartedly agree! We affer our thanks and appreciation.

Mr. Carter, Vice-Principal, has among his many duties the responsibility for class checks on attendance and records. Keeping students in line AFTER they get to school also helps bring on Excedrin head-ache no. 91

James Carter Assistant Principal

Don Cooper Assistant Principal 5-8

A newly formed position this year takes into account the many responsibilities of supervision and guidance for grades 5-8. Mr. Cooper, also a Vice-Principal, has done an admirable job in this position. Everyone agrees that the elementary and junior high have benefited from him.

Benjamin Trolinger Principal

Speaking of Excedin headache no. 9, Mr. McGee also serves as a Vice-Principal. Among his many duties are supervision of busing procedures and aiding with discipline, Good work Mr. McGeel

Herb McGee Assistant Principal

Elizabeth Cummings Secretary

Polly Skinner Registrar

Lois Lord Bookkeeper

#### GUIDANCE...

The function of guidance is to help the individual toward solving problems. The aim is to help students to become responsible members of the world community. The guidance program is perceived as that part of the total educational program that helps to provide the person with the apportunities and specialized services by which he can develop to the fullest of his abilities and capacities.

#### OFFICE...

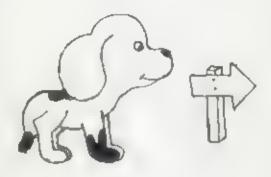

If there are any faculty members in school that all students and teachers know it has to be the office staff. Mrs. Lord is our school bookkeeper and is responsible for all money transactions. She has a remarkable ability to squeeze 99 jobs into 32 minutes! As for Mrs. Cummings and Mrs. Skinner, we recommend roller skates to help in keeping up with everyone.

#### FOREIGN LANGUAGE. . .

Our foreign language department consists of Spanish and French. Language is the basis for communication in our world. Through learning in other languages we learn about our world. "Holo y AuRe Voir."

Gloria Davis Spanish

Rosemary Edwards French and History

Cal Campbell
Mathematics and Journalism

Among the many math courses that are offered are general math, geometry, consumer math, pre-algebra, and algebra I, II, and III.

Lester Ann Summers Math

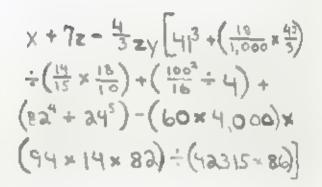

Ollis Grayson Jr. Science and Math

The study of mathematics is an attempt to emphasize the "why" concept along with the "how" concept. We stress that mathematics is a logical sequence of ideas. Students are encouraged to explore new areas of mathematics as well as to improve speed and accuracy in the basic skills. We attempt to stimulate and further the thinking process, conveying to each student the importance of organized, independent, and creative thinking. Our mathematics teachers have done a great job of conveying this to the students. As Mrs. Gray says, "Thou shalt NOT add 2 ± 2 and get 5."

Kay Gray Pre-Algebra and Algebra I

#### MUSIC...

Music must eventually be performed in order to be experienced since it is not music until it has been active through some medium for its performance. This functional value of music has been long recognized. There is no other form of expression that can have the same effect for children. Music offers the individual an apportunity for self-satisfaction and self-fulfillment. These are some of the goals of our music department that are conveyed through such courses as charus, music appreciation, Black music, and band.

So, "1 and-a 2 and-a 3 . . . ."

Cecil Fields Band

#### SOCIAL STUDIES

In education for a democratic way of life, students should realize that many different qualities are involved, such as values, understanding, behavior, and adjustments. Students should gain an appreciation of other peoples' cultures and societies and the understanding that they too have made personal, valuable contributions to our civilization.

World geography, world history, American history, Alabama history, civics, Black studies, government, and economics are offered.

Mrs. Montgomery teaches personal typing I and II, a valuable skill forever.

## PHYSICAL EDUCATION

Dorothy Peoples Girls P.E.

Lemuel Jones Boys P.E.

Trudy Campbell Girls P.E.

Walter Milner Boys P.E.

Della Dawson Girls P.E.

John Niblett Boys P.E.

Physical education is an integral part of the total development of each student. It provides social interaction among class members, develops physical abilities, particular skills, and provides for emotional adjustment in learning to cooperate with others.

"White Socks or No Socks"

Mary Acton Science (picture not available)

William Minor Biology

Science

The members of the science department believe that every man and woman, and every boy and girl, can be a scientist. It is their desire to convey to the youth of today scientific knowledge useful to them. The courses offered include general science, general biology, advanced biology, geology, chemistry, physics, and advanced physical science.

We feel our science teachers are dedicated and will work as long as the need exists. In the words of Mr. Minor, "I can talk 'til I'm white in the face!"

Science Newtons

# SPECIAL EDUCATION...

Virginia P. Rives Senior High

Olivia Skipper Junior High

Gloria Fails Elementary

Special Education classes are for the pupils whose patterns of educational needs are very different from the majority of students. Understanding and acceptance are the by-words for this department.

Martha McCulley Junior High

## SENIOR BETA CLUB

Thomas Osburn Chris Serman Roger McGee Gloria Cook Christine Ladd Jacqueine Sonders Cynthia Ne son Mrs Sharon Hardy Spansor

Do you rearly use Alto Sheen?

t's your turn

How much more can I take?

American Education Week opened with a welcome by Student Council President, Roger McGee and he also spoke on the meaning of American Education Week and some of its history. Barry Moorer, Beta Club President, spoke of our involvement in American Education Week and how we should stay involved. The Beta Club also presented a skit on "Getting Involved" to show what might happen later in life if we do not involve ourselves into other activities. Also sponsored was a school beautification project which included a prize to the homeroom that looked the best.

#### WINTER

Winter is a very strange season
With its bitter and cold wind
That makes the leaves blow
And all the trees around bend

The leaves fall off the trees
And the sun never comes out
The coldness is enough to kill
And it will without a doubt

But there are some good things about winter
Like the closeness it brings you to someone
The cuddling is enough to keep you warm
Heck, with cuddling, who needs the sun.

Carol Williams

#### **KINDNESS**

When someone does a kindness

It always seems to me,

This is the way

We all should be.

For when we bring some pleasure

To another human heart

We have shown kindness

And we've had a little part

In showing kindness to those around us

I'm sure it's true

This world is a better

Place for me and for you.

Ceola Streety

#### CONQUERED

Tomorrow I shall raise up the fallen to eternal life.

Tomorrow I shall touch my brother to show new, real love.

Tomorrow I shall scream from the mountains to bring freedom.

Tomorrow I shall conceal my own filthy soul to portray justice.

Tomorrow I shall walk with the wicked to insure peace.

Tomorrow I shall uphold the world to reveal courage.

Tomorrow I shall hush all fearing hearts to silence and solitude.

Tomorrow I shall brush away tears and lift crushed hopes to fulfill dreams.

Tomorrow I shall reach up to God and find Him not yet moved.

But today —
I remain . . .
simple
and

real. Rhonda McGee

#### **ANT HOUSES**

Move in now get the first month free, You'll get carpet, climate, and real plastic trees. With walls so thin that your neighbors live in, And your own front yard size three by three.

I stumble as I pass these wonders on man, Park north, park south, just park on the land. Why put yourself in a concrete can, To live just like an ant with nothing in hand.

By Kim Kirkland

LILIENTHAL'S

112 Broad St. 872 2661

#### IT'S JUST A PIECE OF CLOTH

That is all it is — just a piece of cloth. But when a little breeze comes along, it stirs and comes to life and flutters and snaps in the wind, all RED, WEITE, AND BLUE! And then you realize that no other piece of cloth could be like it!

If has your whole life wrapped up in it—the meals you eat; the time you spend with your family; the kind of things your boy and girl learn at school; the strange and wonderful thoughts you get in church on Sunday.

Those stars in it — they make you feel just as tree of the stars in the wide deep night. And those stripes — they are bars of blood to any dictar, who would try to change this way of life.

just a piece of cloth, that is all — until you pro your sout into it, and give it meaning. Then it is symbol of liberty, and decency, and fair-decline the everyone. It is just a piece of cloth until we breathe life into it; until we make it stand for expressing we believe in, and refuse to live without

# ANNUAL STAFF "75"

Will she ever shutup?

Who Me?

Will this ever end?

#### THE END

This is if!

The hours of hard work and deep concentration are behind us.

Time spent hover ng over layouts and pictures is all in the past.

Cameras flashing and f in developing are just memories.

We hope you agree, the work was not spent in vain

We, the Annua Staff, sincerely hope you enjoy the 1975 edition of the Pantherama.

It is been a lot of fun putting this yearbook together.

We just hope you enjoy the results as much as we've enjoyed preparing them.

We've tried to show the different sides of our school,

Happy, sad, active, lazy, carefree, matter-of fact, and downright ordinary.

Take time to reminisce through all these memories, and enjoy them now and for years to come.

We would like to give special thanks to MRS CAROL CZERW, who gave of her time and patience so this edition of the Pantherama could be possible.

THANKS,

Pantherama Staff 1975
